REMARKS

Claims 1-3, 5-17, 20-23, 25-37, and 40 have been filed. No new matter has been added. Each of the filed claims describes a module or method in which the screening and/or diverting member includes a frame engagement member, extending downwardly from a lower surface of the screening or diverting member. The frame engagement member is provided for interlockingly mounting the screening or diverting member onto a reinforcing support frame such that the screening or diverting member is readily attachable to and detachable therefrom.

Allowance of claims 1-3, 5-17, 20-23, 25-37, and 40 as submitted is solicited. The Examiner is encouraged to call the undersigned attorney for applicant if any questions arise concerning the allowance of the pending claims in the above-mentioned application.

Respectfully submitted,
